

## Monica - FUN ACTIVITIES FOR THE HOME

### Reading with José-Luis

Fold four sheets of paper and staple them in the middle to create a small book of eight pages. Take the verses of the song and glue them on the bottom of each page. Read the verses pointing to each word on the page. Then have your child illustrate each page. Make sure to remind your child that the illustration needs to match the words.

### Picture/Word Matching Game

Download the picture/word matching game from the activity section. Cut apart the pictures and words of the parts of the body. Have your child match the picture with its corresponding word. For younger children, have them match two picture cards.

### Child-made Pattern Book

Create an easy pattern book with your child. Fold two sheets of paper to create a four-page book; staple in the middle. Have your child draw and color a body part on each page. Have the child complete the following sentence on each page: *I see my \_\_\_\_\_* (e.g., face, hands, feet, arm, leg). Have the child either dictate, copy or write each sentence. Read the book with your child. Remember to point to each word while reading.
